Buffalo Drum

Loops and Hits – REX version

Welcome to the first dedicated percussion based loop based library from Bolder Sounds. I'm very excited about this approach to sampling for future libraries. Even though the samples were generated with just one Buffalo Drum, the end result can be anything from a simple single drum rhythm to a tribal drum ensemble. Thanks to the "Three Time Tempo Concept", a lot of interesting polyrhythmic is possible.

This library includes - 4/4 loops recorded at 90 bpm, 6/8 loops at 60 bpm, 6/8 loops converted to a 3 against 2 rhythm with ReCycle!

Also included is a collection of Buffalo Drum Single Hits , so the user can create fills or loops of their own creation. All samples were recorded in 24 bit stereo. The loops samples were then converted to REX files using Propellerheads ReCycle!

About the Buffalo Drum

The drum that was sampled is a 22 inch diameter Remo Buffalo Drum with a wonderful rich resonant tone quality. The drum was played with hands, various size beaters, brushes and wood sticks.

After unpacking the .rar file, you'll find a folder called "Buffalo Drum – REX". This folder contains five items:

1. A folder called "BD - 4-4"
This folder contains all the various Buffalo Drum 4/4 loops.
2. A folder called "BD - 6-8".
This folder contains all the various Buffalo Drum 6/8 loops.
3. A folder called "BD – 3 against 2".
This folder contains all the various Buffalo Drum 3 against 2 loops.
4. A folder called "Single Hits".
This folder contains all the various Buffalo Drum Single Hits.
5. A document called "Buffalo Drum_Read_Me". (You're reading this now).

About the folder structure of the loops

The Buffalo Drum Loops consists of three main Time Signature folders:

4/4
6/8
3 against 2

Each Time Signature folder is divided into three different Tempo subfolders:

1 x (original tempo)
2 x (twice the tempo)
3 x (3 times the tempo)

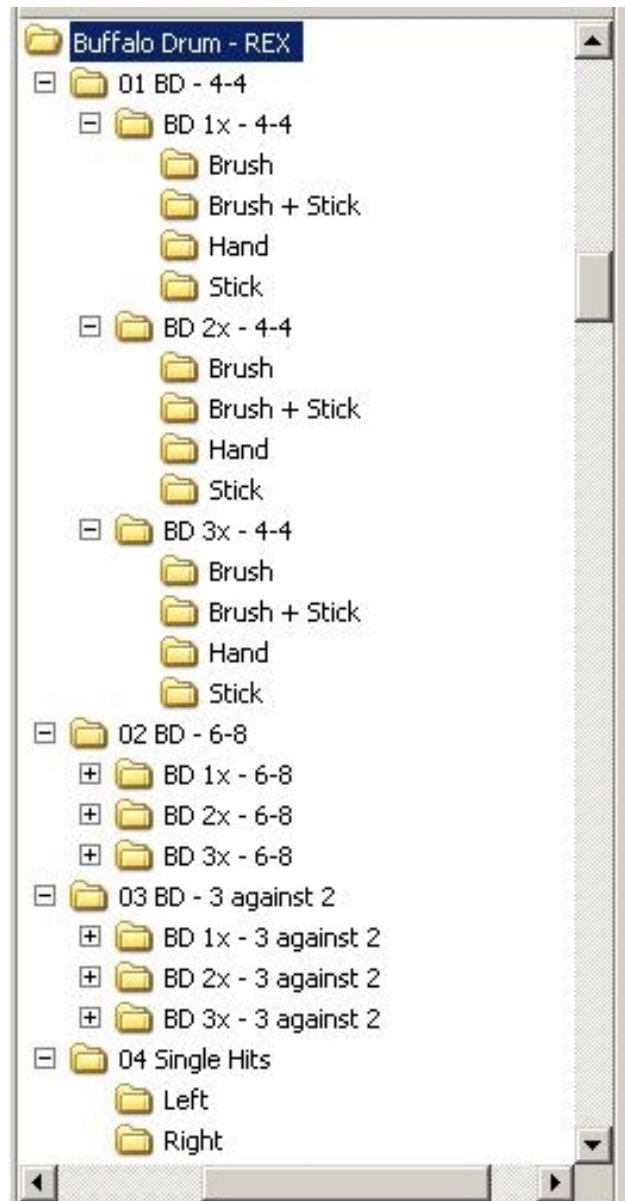

Each Tempo folder is divided into four different articulation subfolders:

Brush
Brush + Stick
Hand
Stick

Finally there is a main folder called "**Single Hits**". This folder contains all the One-Shot Hits, divided into two subfolders:

Left
Right

The **Left/Right** folders refers to the side of the drum the hit was played.

REX version by Bo Clausen.

Enjoy the Buffalo Drum library!

LICENSE AGREEMENT (EULA)

You have purchased a single-user license use these samples to be used in any type of music production, i.e. making demos, records, remixes, commercials, jingles, post productions, commissioned pieces, sound tracks for film, theatre, musicals, live performances, computer games or multimedia. Samples may not be utilized or resold in the form of Sample Library Music or Sample-related endeavors (e.g. "Joe's Sample Collection" which contains our products). Written permission from Bolder Sounds is required. You CAN NOT trade, re-sell, lend, rent, copy, duplicate, upload or download to any database, BBS, or Server any of our sounds because Bolder Sounds owns the rights to the samples and programs, Bolder is licensing these to a single user for music production. Use of these samples MAY NOT be utilized in separate commercial applications such as the Apple ipad or the Android etc.. without written consent from Bolder Sounds.

Installation of this library constitutes full acceptance of these terms.

** On a personal note Please think twice before making a copy of this library for a friend or anyone else. All the legal mumbo jumbo in the world is not going to stop piracy of libraries such as this. Many hours of work has gone into this library, I have also gone to great lengths to make this disc as affordable as I can so that this disc is NOT pirated. As always..... please put yourself in our shoes before making a decision whether to copy this data for purposes of piracy or not.*
